THE LATEST CUSTOMER EXPERIENCE INSIGHTS AND RESOURCES FROM MEDALLIA EXPERIENCE ‘18
Welcome

We’re really excited to bring this e-book to you, which covers key takeaways from Medallia’s Experience ’18: exciting new products, solutions, and innovations as well as how our customers are using Medallia Experience Cloud™ to win through customer experience.

Borge Hald
Amy Pressman
Chapter 1

CX TIPPING POINT
“Companies can no longer rely entirely on the strength of their products and advertising to sustain a positive brand reputation.

Instead, they must devote sustained effort to ensuring that each customer interaction is a positive one, and to correcting problems that arise in these interactions.”

Source: The Customer Experience Tipping Point: An Ipsos + Medallia Study
The Customer Experience Tipping Point

Personal experience has the most influence on decisions to choose, or continue to use, brands in the future.

- Personal experience: 50%
- Friends, family or known peers: 20%
- Brand reputation: 16%
- Other ordinary peoples’ opinions online: 9%
- Experts online: 8%
- Communication from the company or brand itself online: 7%
- Communication from the company or brand itself in traditional media: 6%
- Experts in traditional media (TV, magazines, newspaper, etc): 5%
- Opinion leaders (celebrities, politicians, etc) in traditional media (TV, magazines, newspaper, etc): 3%
- Opinion leaders (celebrities, politicians, etc) online: 3%

Percent of respondents who rated each item 9 or 10 on a 10-point scale where 1 is “definitely would not influence” and 10 is a “definitely would influence”.

Medallia partnered with Ipsos on a global consumer survey that yielded insights on how companies can meet or exceed customer expectations in the coming year and beyond.

Download The Customer Experience Tipping Point — An Ipsos and Medallia Study here.
Customers Expect Ease and Convenience Every Step of the Way

- 24% of customers expect checkout free shopping to be available.
- 24% of online retail consumers expect same day delivery.
- 30% of customers expect call center agents to be instantly familiar with their contact history.
- 35% of online retail consumers expect to have the option to chat with a live agent.
- 49% of offline shoppers expect consistent levels of service across physical and digital channels.
- 56% of online retail shoppers expect consistent levels of service across physical and digital channels.

"Customer experience through the entire journey with your brand is actually your most important product. It has to be monitored, understood, and managed exactly like a product."

Borge Hald, CEO, Medallia
Creating a Culture of Client Care

“Wherever, however, our customers choose to interact with us – we have to be true to our core purpose.”

Bank of America has a purpose of helping make the financial lives of its customers better with every connection. In 2017, they went through a major undertaking to lift the CX culture of their whole company – over 250,000 employees worldwide.

After seeing an opportunity to empower and motivate their teammates – they launched Bank of America Voices, which illuminated the connection between the Bank of America employees and Bank of America customers. Now, employees and leadership can see first-hand how their interactions affect clients and how they’re personally responsible for serving their core purpose of making the financial lives better for their clients.

“This is going to be a differentiator for us. It already is.”
Scaling to One

“At Comcast, we’re good at taking one thing and scaling it to a lot of people; we weren’t good at taking the data about the customer and scaling it down to the one, single interaction.”

Comcast is an American global telecommunications company – the largest broadcasting and cable television company in the world. Knowing the digital transformation was upon them, they seized the opportunity to infuse digital into the way they did business and the products they sold.

Comcast shifted their interaction model to one where they spent more time educating the consumer and fine-tuning the product to work harder – infusing CX into the master design. They launched an AI system, a CX layer, and a ‘direct-to-consumer’ radio line that showcased the magic of the digital-human handoff. Agents were able to use the right data to have smarter conversations when there was a need to talk directly to the customer.

“In this day and age, you have to empower the frontline to be agile and make the right decisions – not follow the right rule.”

The Tipping Point: Experience Defines Brands

Customer experience has always been important for business. But advancements in technology and empowered consumers have created a tipping point, where customer experience has become a company’s make or break moment.

At Medallia, we’ve been building and operating an enterprise-grade Customer Experience platform for a long time, and our goal has remained the same: make it easy for businesses to win through customer experience – where they can engage every customer, activate every employee, and optimize every experience.

For those who want to retain and attract people to their brand, and build lasting affinity for their company, experience is king. The time to win is now.
WATCH THE OPENING KEYNOTE
ENGAGE every customer
“The more you engage your customers, the more you learn about them. The more you learn about them, the more you can anticipate their needs instead of reacting to their needs.”

Borge Hald, CEO, Medallia
Why it Matters to Engage Every Customer

The more that companies listen to customers, the more likely they are to improve CX.

When companies follow up with customers, they see dramatic improvements.

+15% pts
Collect social media/online reviews for feedback

+10% pts
Collect feedback survey across multi-channels

NPS® improves +38%
Responds to all or most feedback

No response to feedback

Enabling Employee Activation

Accenture Customer Experience Solution for Salesforce powered by Medallia

By integrating customer experience management with CRM, sales and customer service teams can have direct access to the voice of the customer and act on the customer feedback and sentiment within the CRM tool.

Our jointly developed solution integrates operational data from Salesforce Sales Cloud and Service Cloud with CX data from Medallia Experience Cloud. This 360-degree view of the customer creates unparalleled insight to personalize and optimize sales activities for opportunities and improve service experience for customers.
Chapter 4

OPTIMIZE every experience
“If you optimize every experience for every customer in their journey, you’re more likely to win their love and loyalty. To do it at scale, you need one platform – running on machine learning and AI – to learn faster and grow bigger from all the customer data.

Then, you can empower your employees with actionable insights, so your entire organization can act with certainty and clarity, and your relationships with your customers will be more rewarding.”

Borge Hald, CEO, Medallia
“Customers are getting the exact experiences you either intentionally or unintentionally designed for them.”

Experience Data Platform (XDP™)  
Gain a complete, accurate, actionable view of your customers

A key challenge for improving customer experiences is understanding each customer’s journey across multiple touchpoints and channels, many of which have disconnected information silos.

You need a unified “system of record” that brings together experience data from any data source, connecting the dots to gain deep insights into experiences along each customer journey. With XDP, you can construct experience profiles for every customer, and then run sophisticated analytics to understand, anticipate and optimize interactions.

Get a True 360-degree Customer View  
Unified view of a customer and all their interactions to drive personalized experiences.

Improve Customer Insights  
Create relevant and targeted segments to track, compare, and analyze the behavior of customer cohorts over time.

Optimize Customer Journeys  
Visualize and analyze customer behavior across touchpoints to optimize journeys and predict future behavior.

Medallia Athena™
Actionable and Adaptive AI for Your CX Programs

Artificial intelligence (AI) represents the forefront of innovation in customer experience management with new technology that gives companies the power to both understand and optimize customer experiences at scale.

With Medallia Athena, companies can leverage AI and machine learning to make smarter, more informed decisions on how they engage with customers and deliver great experiences based on deep, guided insights.

Collaborative Automation
Guided assistance throughout the Medallia Experience Cloud, from program definition, through CX interaction design, to channel selection and sampling.

Built for Action
Combines human and machine intelligence to discover and recommend high value actions and focus employee attention where it matters most.

Always Improving
Machine learning capabilities continually adapt and improve based on new feedback, associated customer data and usage patterns.
“Our team takes to heart a desire to create solutions that help every company build more rewarding relationships with their customers.

We aim to make it easier to answer: How do your customers feel throughout their journey with your brand, and what can you do to win their love and loyalty?

We know that is exactly what drives results.”

Krish Mantripragada, Chief Product Officer, Medallia
Enabling Experience Optimization

Introducing ExperienceMIX — Delivering personalized, contextual experiences to create fiercely loyal customers

Chapter 5

Awards
Experience Champion of the Year

Bank of America

This year, Medallia is proud to recognize Bank of America as Experience Champion of the Year.

The “Medallia Experience Champion of the Year” award recognizes an entire organization within the Medallia community whose contributions and leadership across their organization exemplifies the values of an Experience Champion.

The winning organization is chosen by Medallia leadership as a role model to the community on how to be “all in” on the customers they serve, as well as the investment in their own employees’ growth and development to create more meaningful customer experiences.

Bank of America’s program is differentiated by its true omnichannel program touching every line of business, massive integration of operational data in a centralized, action-oriented system, partnership with Medallia in developing new cutting-edge CX functionality in the system, and the company’s “all-in” commitment to customer centricity, from executives to the frontline.
EXPY Awards

Companies entered in any of the four categories:

Engaging Every Customer
Effortlessly connect with your customer at any touchpoint to understand their experience and improve their relationship.

Optimize Every Customer
Model and instrument every touch point and journey to systematically measure, analyze and improve every experience.

Activate Every Employee
Drive real-time collaboration and accountability across the company by personalizing data, insights, and workflows for every employee to action.

Transform Your Company
MEC is the only enterprise grade platform that can wire your entire organization to systematically drive action and win on customer experience. Leverage Medallia’s expertise, best practices and ecosystem to accelerate your time to value and become a customer experience leader.

A panel of external industry experts and Medallia thought leaders judged entries based on:

- Impact on business metrics
- Impact on the customer experience evidenced in feedback
- Impact on organizational culture and operations
- The X factor, including inventiveness and relevance to the industry
EXPY Award Winners

IBM
Engage Every Customer
IBM’s use of customizable, self-service models and predictive analytics helped them connect with customers more effectively, at massive scale and with massive results across the business.

Sage
Activate Every Employee
Sage initiated a large scale, global B2B rollout of a customer experience program that saw thousands of employees plug into the Medallia platform and refocus their efforts on making customer experience improvements.

Future Generali
Optimize Every Experience
Future Generali India Insurance used customer feedback to reimagine each major experience touchpoint along the customer journey, from purchase to ongoing support and services, and to drive strategic change across their organization.

Comcast
Transform Your Company
Comcast’s commitment to building a culture completely oriented around the customer, from the frontlines to executives, is exemplary of winning with experience. It’s led to both a massive lift in performance across the business, and just as crucially, a lift in perception of what interacting with a telecom company should be like.

Hear What Winners Have to Say

**IBM**

“Our customized self-service approach to CX offers the flexibility to provide support around more than 300 product offerings and reach a level understanding of every customer, even those who aren’t actively engaged in providing feedback, and often in advance of interactions through predictive analytics.”

*Kathy McGettrick, VP Market Development & Insights, IBM*

**Future Generali**

“We’ve successfully implemented and adopted the Generali Group NPS Program to create a differentiated experience for customers, to lean on customer insights to make each touchpoint better, and to grow our business based on the interactions customers have with Generali across the automotive and health insurance businesses.”

*Hari Shankar Mishra, AVP Customer Service at Future Generali*

**Sage**

“To develop the best possible experience requires that everyone in our organisation has a deep understanding of customer demands and pain points, from executives to frontline contact centre employees. Putting in place a structured approach to gathering and utilising real-time feedback has created a major cultural shift, sparking positive changes to the business.”

*John Patterson, VP Customer Experience at Sage*

**Comcast**

“Comcast is focused on creating great experiences for our customers and employees by placing their feedback at the center of everything we do. Our customer-centric culture is empowered by the real-time feedback we receive from customers and employees through the Net Promoter System and Medallia solution. This information helps us make the operational, technical, and process improvements needed to continuously improve our customer’s experience.”

*Graham Tutton, VP NPS Operations at Comcast*
